Message from President Jim Moran:

This has been a year of transition for the VPSF and one in which we have found our legs as a service to our school community. We released a new version of our website to keep you apprised of activities and opportunities. We helped serve as a conduit for our first "Class of" scholarship thanks to the work of the Class of 1966. We provided \$18,450 in grant support during the 2016-17 academic year to foster a margin of excellence in our schools thanks to your donations of time and money. We participated, as community representatives, in the successful search for a new superintendent and look forward to working with Mr. Damon Alvey as he settles into Vermillion. At the same time, we give our best to Dr. Mark Froke on his retirement, and note that Dr. Froke has been an active supporter of the Foundation. We have listened to school administrators and teachers and aligned our priorities to what they see we can do to *ignite excitement in learning*. We sought approval to solicit funds from states beyond our South Dakota borders to assure compliance with various laws that apply to 501(c)(3) organizations like ours. We also want to thank and acknowledge Susan Tuve for her tireless work as previous president of the Foundation in helping us formalize our processes and procedures to give us a clear path to a productive future. Finally, we thank you for your continued interest in helping us play a role in helping set the students in Vermillion on a path to life success.

Class of 1966 Creates a New Scholarship

At their 50th high school reunion last September, the Class of 1966 agreed to create a scholarship to remember their classmates, Dennis Helseth and Connie Hatch, who tragically died in 1965 after the Vermillion Tanagers celebrated an undefeated football season. To date, class members have raised \$17,000 of their \$25,000 goal. They hope to provide one or two scholarships to VHS students for years to come. A \$500 scholarship was presented at Awards Day this May.

VPS Foundation Current Projects

Art at Austin & Jolley Elementary Schools. The VPS Foundation and the Vermillion School District have strengthened and expanded the fine art programs in the K-5 grades. At *Austin*, a Foundation grant created a five-year art program called "Arts Attack" for kindergartners and first graders. Arts Attack is a national program which provides high-quality, video-based lessons designed

by an art educator. The Vermillion PTO will be funding the art supplies.

At *Jolley*, a grant awarded by the State of South Dakota's Classroom Innovation Grant helped create a new STREAM Teaching Lab. STREAM (Science, Technology, Reading/Writing, Engineering, Art and Mathematics) education represents an experiential method of learning that encourages children to discover that curricular content is interconnected, meaningful, and relevant to their existence. Jolley school and USD School of Education have a partnership for USD students to study at the new lab to learn how to incorporate the learning model in their own future classrooms.
